EXPERIENCE

Intellect Design Arena

UI/UX Design Intern

New York, NY

June 2026 – Present

- Lead the redesign of Purple Fabric, Intellect's enterprise AI platform, redefining navigation and content hierarchy to clarify complex AI offerings for financial services audiences
- Own the end-to-end redesign of the homepage and core solution pages, from information architecture and wireframes through responsive high-fidelity UI and interactive Figma prototypes; designs are currently being implemented by engineers for production
- Synthesize competitive analysis across 8+ enterprise AI and fintech platforms into UX pattern, visual system, and messaging findings that inform design direction and product positioning
- Partner with product, marketing, and engineering to translate complex AI capabilities into clear value propositions and visual storytelling for enterprise B2B buyers

SayPlay – CWRU Cognitive Science Department

Digital Experience Designer

Cleveland, OH

May 2025 – September 2025

- Selected from 70 applicants for a competitive \$4,500 SOURCE grant to design a digital communication platform supporting children with cerebral palsy, in connection with the United Cerebral Palsy Center
- Conducted 60 hours of user research with children, occupational therapists, speech-language pathologists, and parents, generating 26 actionable accessibility insights that shaped product direction
- Designed the end-to-end prototype and supporting design system, translating research into reusable interface patterns across user flows, information architecture, wireframes, and high-fidelity UI
- Benchmarked 3 existing platforms to define visual hierarchy and interaction patterns designed to improve task clarity and accessibility
- Presented research findings and prototype to a faculty panel, advancing the project toward continued academic development and future clinical testing

NutriHealth

Product Designer

Cleveland, OH

September 2022 – June 2023

- Led mixed-method research – 25+ surveys and 10+ interviews – on student nutrition behaviors, motivation barriers, and usability expectations for a consumer mobile health app
- Translated findings into personas, journey maps, and user flows that defined design requirements and feature prioritization

Design for America
